Design options

Designed specifically to suit the requirements of young children, Rearo's nursery toilet cubicles provide the required degree of privacy, safety and aesthetic for their users.

Fully customisable, cubicles are produced to bespoke specification within our 67,000 sq ft manufacturing premises in Glasgow.

Supplied in 13mm Compact Grade Laminate, our product caters to high traffic environments with three cubicle designs to choose from: wave, ranch and lollipop.

Wave

Fun and whimsical, our wave toilet cubicles have a unique and playful curved aesthetic.

Décor combination shown: Water Blue & Spearmint

Ranch

Western inspired, our ranch style toilet cubicles bring a sense of character to school washrooms.

Décor combination shown: Lotus & Royal White

Lollipop

Utilising quirky shapes, to give toilet cubicles a friendly and youthful appeal.

Décor combination shown: Cuba Libre, Lotus & Egg Yolk Yellow

Made to order item, standard lead time 3 - 4 weeks (subject to change)

The décor range

Having researched and reviewed upcoming interior trends within the children's market, the Rearo design team have selected a core range of eight décors for our nursery cubicle range.

A mixture of muted pastel tones, mixed with a vibrant accent yellow and blue, this collection considers the psychological effects of colour on a child's behaviour, focusing on both ADHD and autism requirements. As well as this, it also caters to the ever popular boho style which is becoming more apparent in nursery settings.

For our full trend analysis, please see our supplementary document 'Rearo Nursery: The theory behind'.

Access Panels: Spearmint

Complementary ranges

In addition to offering a range of toilet cubicles, IPS and matching vanity units, we also stock a variety of complementary ranges - including wall lining systems and wash troughs to suit commercial premises.

Washroom applications

Supplied in either a tongue and groove or square edge format, our **Selkie Board and Bühne Board wall lining systems** have a choice of over 60 laminate décors to select from.

Waterproof in nature, they are ideal for washroom applications and dry applications, with a range of complementary trims and matching colour silicone sealant for a professional looking finish.

Boards are sold individually: 2420mm x 1200mm x 11mm (Selkie Board) or 3030mm x 590mm x 1mm (Bühne Board)

Hand crafted, our **Corian Solid Surface Wash Troughs** are a luxury alternative to standard sink formats, designed to be mounted directly on top of vanity unit surfaces.

Opt for either a two, three or four person design.

Other applications

Perfectly suited to learning areas, our **Magnetik wall lining system** accommodates floor to ceiling areas and allows for collaborative working.

Performing the same function as a whiteboard, the built-in metallic layer within the laminate also allows cooperation with magnets - allowing drawings, notes or posters to be easily displayed.

Panels are sold individually: 3000mm x 1200mm x 14mm

Notes:
