

magnetik

Tailor made to accommodate commercial properties and residencies, Rearo's 'Magnetik' wall panels offer a complete cladding system with whiteboard qualities.

Covering an entire floor to ceiling surface, they provide the ideal work area for communication focused industries, creating a practical co-working space - perfect for both presentation and collaboration activities.

Panels are supplied grooved on both long edges as standard, with flexible installation options, allowing the panels to be fixed in place. Alternatively, panels can be fixed with the use of button-fix clips for a removable option.

For added practicality, Rearo can also supply cleaning materials which we have tried and tested in-house to ensure minimal staining on your chosen panels caused by white board markers.

Specifically we recommend installing these panels in the following areas: education facilities, training rooms, student accommodation and healthcare environments.

Supporting installation and maintenance instructions, as well as specification documentation, are available for instant download from www.rearocommercial.co.uk

 $\log_a(a^x)^y = y \log_a(a^x) = xy$
 $\log_a(a) = 1$

Quadratic Formula

$ax^2 + bx + c = 0 \Rightarrow x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$

$\Delta = b^2 - 4ac$

$\Delta > 0 \Rightarrow 2 \text{ real roots}$

$\Delta = 0 \Rightarrow 1 \text{ real root}$

$\Delta < 0 \Rightarrow \text{no real roots}$

$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$

Quadratic Equations

$ax^2 + bx + c = 0$
